**Ten Years Ago He Changed The Face Of Halloween. Tonight He's Back.**

The most ghastly mass murderer in history has been in a coma for ten years. But tonight, he's awake—and HALLOWEEN has never been more terrifying. While being moved from a maximum security prison for the criminally insane, Michael Myers, the monstrous killer of HALLOWEEN I and II, regains consciousness and escapes. A trail of carnage leads Doctor Loomis (Donald Pleasence), a medical professional all too familiar with Michael's case, to the small

town of Haddonfield, Illinois, where he plunges down that was the scene of Michael's ghastly crimes in the past. There, surrounded by murder and destruction, plunged into darkness by a power failure, left with virtually no hope of rescue, two young women find themselves trapped in their own home, stalked by the most dangerous creature alive. The latest installment in the most popular horror series in Hollywood history, HALLOWEEN 4 may very well be the most nightmarish of all. 88 minutes. Color. 1988.
